CNSI Microfluidics Lab & Innovation Workshop COVID-19 Scheduling Information

Recent announcements

• CNSI Microfluidics Lab & Innovation Workshop COVID-19 Scheduling Information

Overview:

Work in Elings Hall under the Campus' COVID Phase 3 guidelines will be much different than they were before the shutdown. Research will ramp-up slowly so that we can be certain that the work environment is as safe as possible. Some of the most significant changes:

- Occupancy within Elings Hall will be limited. Safe distancing, disinfection, health screening and PPE requirements are described in the SOPs.
- Occupancy in Microfluidics and the Innovation Workshop will be limited to one person at a time in each lab. If there are no problems we may increase this to two people at a time, safely separated.
- Researchers need to schedule their lab time in advance: in general schedule requests will be due on Tuesday night for the week beginning the following Monday. Schedule changes will be made using FBS
- There will be no regularly scheduled training classes special circumstances will be addressed individually.

Scheduling Information for Current Users:

The uFL and IW are be open from 9am - midnight. Users who have completed the CNSI and IW/uFL attestations may schedule work time in the labs using FBS.

- To add/modify/cancel or check reservations log into FBS
- If you are new to FBS please

read this tutorial

. Contact Dave Bothman if you have problems with FBS.

Instructions for COVID-19 access to Elings Hall and the Innovation Workshop and Microfluidics Lab

- Read the Elings Hall Covid stage-3 CNSI Reopening SOP]]
- Read the relevant

COVID phase 4 Microfluidics

/

COVID phase 4 Innovations Lab

reopening SOP

Read the

Office of Research (EH&S) COVID Safety Presentation

• Sign the attestation that you have read the above documents and agree to follow the rules.

Sign the attestation digitally and email it to cnsi-schedule@ucsb.edu.

- Card key access: If you had Elings Hall and Microfluidics Lab/Innovation Workshop access before COVID, or if you are a new user you need to apply for access to the exterior doors and the relevant labs (Innovation Workshop - 2448 Elings, Microfluidics Lab, 3430 Elings at the CNSI access request site.
- Complete the online health screening on the days that you will be working on campus...
