

What is the Portal built on?

BioPACIFIC MIP's Portal system was built with the help of several free and open source libraries and technologies. A brief summary follows:

Frontend

- Svelte + SvelteKit
- PM2

Backend

- Django 5.2
 - Django REST Framework (DRF)
 - Django REST Framework Simple JWT
 - Django All-Auth (user/Gmail authentication)
 - DJ REST Auth
- PostgreSQL 14.7
- Redis (for caching)
